

## 100 MEMORY WATER RESISTANT STOPWATCH 810036

100 Memories of split and lap times.

## SPEED CALCULATING STOPWATCH 810047

Enter the distance, record the time and this stopwatch displays the speed in mph or kph with a resolution of .001. 100 memories of split and lap times.

## DECIMAL DISPLAY STOPWATCH 810048

When decimal resolution is selected the timer can display results in increments of 1/1,000 of a minute or 1/100,000 of an hour as well as the usual 1/100 second mode. 500 memories of split and lap times.

All three models count up or down to **20 hours** in 1/100 second resolution and offer many advanced features. The large 3 line display simultaneously shows total elapsed time, split time, current lap time, lap counter and indicates low battery. Each model also has a unique **LCD contrast adjustment and touch tone selectable buttons**. The sonically welded case insures excellent water resistance. Button cell battery included. Dim: 27/8" x 31/4" x 3/4". Weight: 2.8oz.

Features 5 timing modes:

**Stopwatch:** Recalls split and lap times as well as the slowest, fastest & average laps.

**Timer:** With 3 modes: count down and stop, count down and repeat, count down and then count up.

**Clock:** Selectable for 12 or 24 hour format, with alarm clock, calendar and **hourly chime** modes.

**Stroke:** Calculates average strokes, beats or pulses per minute based on the timing of 3 sample strokes.

**Pacer:** Set from 5 to 240 beeps per minute.

With NIST traceable certificate of compliance  
810036C, 810047C, 810048C

### **LARGE DISPLAY WATER RESISTANT STOPWATCH 810035**

Sonically welded case ensures excellent water resistance. Large 5/8" high display for good visibility. Counts up to 24 hours with resolution of 1/100 second for the first 40 minutes and 1 second resolution thereafter. Has lap function. Also features an alarm clock and a calendar. Button cell battery included. Dim: 27/8" x 31/4" x 3/4". Weight: 2.4oz.

With NIST traceable certificate of compliance 810035C
